

JOB VACANCY

A-GRADE ELECTRICIAN

Electralife
Simply Smarter Living

ABOUT US

Electralife is Melbourne's leading smart home automation and latest technology specialist. We install, commission and maintain premium new tech products across Melbourne's homes and businesses, enhancing our customer's lifestyles.

OUR PURPOSE

At Electralife we're all about the latest, the smartest and the best. That applies to our products, our work and our people. We love automation, smart systems, energy saving, and sustainability. Our work is all about building the smartest homes in Victoria with the best people. We aim to never do average in anything.

ABOUT THE POSITION

- Work with a select team of Melbourne-based electricians and apprentices to help up-skill and mentor the next generation of smart home experts
- Meet weekly in our Cheltenham display suite before departing to site in a company vehicle.
- Participate in comprehensive product training, including:
 - Smart lighting systems (C-Bus, KNX)
 - Multi-room audio systems
 - Security alarms and CCTV
 - IP networks, internet (IoT) products
 - Whole home automation
 - HVAC control
 - Solar power and battery systems

Take pride in tidy cabling and precision wiring techniques

Work in Melbourne's premier homes from the Mornington Peninsula to the CBD

Apply problem solving and quick thinking to all manner of electrical installation and maintenance

Program and commission the latest in smart home technology

KEY RESPONSIBILITIES

- Delivering a smart home project from conception to completion
- Assisting in a project's initial system design before migrating into the field where you will wire, install, and complete the on-site works
- Ordering materials, wiring cable runs and equipment installation, delegation of tasks, and programming/commissioning
- Oversight of apprentices
- Working collaboratively with customers to tailor their home automation system and help to deliver their dream home

WHAT WE'RE LOOKING FOR

While you will be comprehensively trained in our products and systems, successful applicants would be required to meet the following criteria prior to applying:

- A-Grade electrical licence (Victoria)
- Basic knowledge of computer network systems (IP)
- Proven skill-set in the application of neat and organised cabling
- An aptitude for problem solving
- Well-mannered and able to communicate respectfully with your colleagues and clients

Our A-Grade Electricians work collaboratively with the Director, Jayden Crawford, and are assisted on-site by our team of motivated apprentices. Our display suite on Chandos Street, Cheltenham is central to our projects primarily located across Melbourne's Bayside and Peninsula suburbs. We have, on occasion, also been sought after to facilitate projects further inland and even interstate.

STAFF WELLBEING

The Director, Jayden Crawford, has an 'open door' policy so your questions, queries, and feedback are not only recognised but welcomed. Your wellbeing is the company's number one priority, because without our team, there is no Electralife.

OUR VALUES

- Opinions matter; your thoughts and ideas are a valuable tool that enhances the way we work
- Fairness and equality for all; equal opportunity is available for all staff regardless of gender, race or ability
- Reliability - being punctual, arriving early to site, meetings or appointments shows our dedication to the project and respect to your colleagues
- Commitment to providing the best service experience for our clients and delivering the highest quality product
- Dedication to continuous up-skilling in the ever-changing technology industry

LEAVE ENTITLEMENTS

- 4 weeks annual leave
- 10 days sick leave
- All Victorian public holidays

HOW TO APPLY
